WHAT WILL 1950 BRING?

As we reach the end of 1949, and are preparing for the coming of the New Year, it may be well for us to look back and weigh our accomplishments and our failings, and we particularly, should attempt to analyze the reasons for the failings and pledge ourselves to overcome them in the year to come.

From all indications we are moving a bit forward, and 1949 has seen much building in Bay St. Louis, Waveland and surroundings. More new homes than ever in history. Business buildings constructed or in the course of construction. All of gosien, Victor Maumus, Jack Bell, this is a very healthy sign, and it is time for all to realize that perhaps much more lies in the future. It is in the hands of the people of this County. Will they seize the opportunity?

In order to advance we must have a sound program, with sound thinking and sound leadership. Some will say there is too much difference of opinion for a sound program to be developed, and that good leadership is not afforded where there is continuous bickering. This is true. But, difference of opin- Kay Ford. ions test good leadership and the soundness of programs. Yet we should not allow the variance in opinions to supercede the bright throughout with Christmas Smith and Mrs. Leo W. Seal and desire to serve for community good. This is not the proper spirit. We would like to point out two incidents of the past year home of her parents, Mr. and Mrs. outfit in a light tan shade with which will show very clearly the results of cooperation, even Charles Poolson, last week. though there may have been some petty personal or political difference existing between individuals. First, the rebuilding of the Beach Road in Bay St. Louis. This matter handed capably by the Board of Supervisors of the County, who cooperated and worked with the Mayor and Commission Council of the City of Bay St. Louis and a committee of the Hancock of County Chamber of Commerce. Second, the Christmas lighting and Waveland, sponsored by the Chamber of Commerce. In this instance the Chamber of Commerce did not have the necessary Mrs. Clois Fucheu, of Eau Claire, High School formal. While in New funds to cover the expense entailed It was necessary to raise Benton Harbor, Mich. the money from the businessmen. The public officials and the men who served on these committees may not have been in complete accord in personal and political matters, yet in both instances they were able to rise above such matters and the results speak for themselves. A Beach Road and the best Christ- Dianne, Chester Pucheu, Mr. and mas lighting had as yet.

Every person is entitled to their opinion, personal or political, and we should not sulk, when one has the courage of his convictions and so expresses them. 'Too Little for Brains' Idea Is Hindering Research Medicine -By BILLY ROSE-

Today, I'd like to tell you about a talk I had with a doctor who is doing research work at one of the New York cancer clinics. He made me promise not to use his name because he was afraid he might be blacklisted by the foundation which pays his salary.

I began by asking him to sketch in his pre-research career.

"The usual 10-year grind," he said. "Four years of college, four
